OVERVIEW

Nord Anglia School Shenzhen is a bilingual boarding school in Shenzhen providing an outstanding education for children aged 6-15 years old. They blend the Chinese national curriculum with other international teaching methods and philosophies, giving your child the very best of eastern and western education.

IMPACT

Nathan stated "SchooliP has already begun to enhance our appraisal process. Line managers and leaders are much more aware and supportive of each individual team member's objectives and the steps they are taking to achieve them. We were also able to produce custom lesson observation proformas and these have made observations less time-consuming and more focused".

Nathan also added, "Although we have only used SchooliP for a short time, it's clear it has the potential to be an extremely powerful tool for our school moving forwards."
