

CASE STUDY

Charlene Gethin, Executive Headteacher
The Forest Family

AT A GLANCE

CHALLENGES

- Linking staff across multiple sites
- Finding a flexible system that can suit the school's needs
- Sorting through mass amounts of paperwork for meetings

BENEFITS

- SchooliP can be customised to tailor all of the school's needs
- Links across multiple sites allowing for easy and efficient transfers of work
- All stored in one centralised system, removing the need for any paperwork

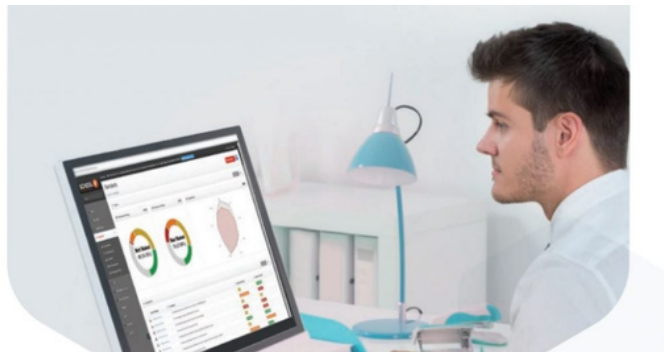

"...This increased efficiency will save us valuable time..."

CHARLENE GETHIN

Executive Headteacher
The Forest Family

OVERVIEW

Executive Head Teacher, Charlene Gethin of the Forest Family explains why she is very happy with the implementation of our school improvement software tool, SchooliP. The Forest Family consists of Needwood Church of England Primary School and All Saints Church of England Primary School. They are all part of the John Taylor Multi-Academy Trust.

IMPACT

Charlene stated "We are very satisfied and we know it will make a big difference! We have received excellent customer service where there is a real tenacity to get things done. With our observation form and school development template in place, we look forward to fully using SchooliP."

Charlene also added that "Whilst we are asking ourselves the same performance management questions, we now enjoy greater efficiency in recording our responses. Staff can log in remotely and complete their reviews. This increased efficiency will save us valuable time."
