

CASE STUDY

Vladimir Grabarnik
CB Co-Ordinator
Letovo School

AT A GLANCE

CHALLENGES

- Storing the results of teacher assessments
- Visually displaying teacher progress
- Relating teacher portfolios to their performance

BENEFITS

- SchooliP easily stores the results of teacher assessments
- Dashboard displays show the progress made by teachers
- SchooliP seamlessly integrates, allowing for links from portfolios to performance management

“Teachers found the system useful”

VLADIMIR GRABARNIK

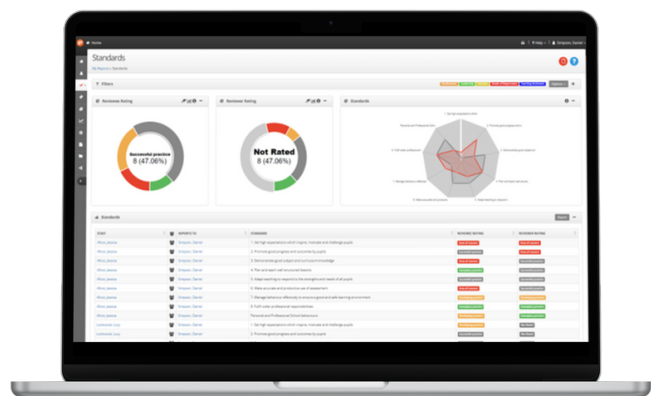

CB Co-Ordinator
Letovo School

OVERVIEW

Letovo School is a non-profit co-educational independent boarding school for grade 7 – 11. Founded in 2018, Letovo offers a world-class, bilingual education to exceptionally gifted and motivated students from across Russia. Having adopted a need-blind admission policy, Letovo seeks to establish an all-inclusive community, educating a new generation of socially conscious, internationally minded Russian and world citizens.

Letovo is the best private IB school in the world. In the Global Top IB Schools 2022 ranking, the Letovo school took first place. Located in Moscow, the Letovo school has the capacity for 1000 students.

IMPACT

Vladimir stated "Letovo school has used SchooliP for two years and found the system very useful for our 4-step teacher appraisal. It is easy to store the results of different teacher assessment stages, moreover, the management team can easily find dashboards to see the whole picture of the teachers progress."

Phillip also added that "Teachers found the system useful also, uploading different materials to their portfolios and analytics related to their performance."
