

CASE STUDY

Jazz Williams, Shackleton International School, Spain

AT A GLANCE

CHALLENGES

- Evaluating the school
- Capturing evidence
- Strategic focus
- Saving time

BENEFITS

- Single central solution
- Easy access for all
- Robust evidence storage
- Simple to use

"All staff find the visual representations an excellent way of determining progress, areas for development etc"

JAZZ WILLIAMS

Shackleton International School, Spain

OVERVIEW

Shackleton International School emerges, as a British school, through the extensive experience in the education sector of its founding team.

IMPACT

Jazz stated "In my role, tasks that can be done in a few minutes within School iP, but they were taking significantly longer without the platform. All staff find the visual representations an excellent way of determining progress, areas for development etc. This applies to appraisal as well as school development plans. We have a single system that has brought consistency, reduced workload and centralised tasks and activities. We purchased a three-year subscription because we were so impressed by the functionalities and how it would impact on administrative tasks (for example). I am glad to say that the product has delivered and continues to deliver. It is very hard to imagine returning to our old way of working with various platforms, file sharing sites etc."
