20,000 PEOPLE CAN'T BE WRONG

By Ian Parkin

That's right, 20,000 people – that's the number of people who have used our iP Suite systems this academic year so far.

We have seen a noticeable uptake in the use of the iP Suite this year and we can't be happier that you're using it more now than ever before, not only for appraisals, but also monitoring, CPD, Development Planning and Self Evaluation.

But don't rest on your laurels, there are new modules for managing Policies and Audits that complement the rest of the system.

Let us know if you want to find out more about these new modules.
