## FREE SCHOOL RESOURCE MANAGEMENT WEBINARS

By Damien Roberts

Ensuring that your school resources and strategies are closely aligned is more important than ever in these tough times. It will help you to plan the best curriculum for your pupils with the funding that you have available, whichever your phase or type of school.

That's why we've teamed up with Entrust Education who have once again partnered with the Department for Education (DfE) to deliver a series of 10 FREE webinars covering all the key aspects of school resource management.

This fully online training is relevant for school business professionals, headteachers, senior leadership teams, curriculum leads, governors and trustees, estates staff and HR staff.

With the help of Entrust Education's experienced experts, schools will be equipped to manage their resources effectively, maximising efficiency and, where relevant, ensuring compliance.

Expanded and updated this year with all-new guidance and information, webinars are running until the end of March 2023. The following topics are being covered:
