A simple way to
effectively manage
professional development

SCHOOL iP
Improving your school's performance

SchooliP
Introduction

SchooliP is a simple way to effectively manage professional development.

SchooliP engages and empowers school staff in their own development to positively impact teaching and learning. It helps staff to be even better by ensuring:

- **Proactive development**

- **Sharing of best practice**

- **Ongoing evidence**

- **Achievement of objectives**

- **Consistent communication**

SchooliP also supports every school's opportunity to be outstanding, helping to link professional development with effective evaluation and improvement planning.

Designed for all schools and academies of any size, SchooliP supports successful and efficient professional development and school improvement processes.

"As a deputy head who oversees performance management this has made my job easier and I have a clear view of whole staff performance, at every level. SchooliP is a fabulous system; it ticks every box for managing performance management and school improvement."

Charlie Barber, Vice Principal, Hartsdown Academy

> **"** SchooliP empowered staff to take control of their own performance management and ensures that this is not something controlled by senior leaders. We particularly love the blog feature to encourage ongoing communication. **"**

Philip Adamson, Headteacher, Woodlea Primary School

> **"** As a result of completing last year's performance management reviews using SchooliP, 99% of staff passed their review! **"**

Mandi Uden, Assistant Headteacher, Rivermead School

> **"** I have found a real benefit of SchooliP has been that it has given a voice to those 'unsung heroes' within our school, those who don't necessarily shout about their achievements but have a massive impact on our school. **"**

Charlie Barber, Vice Principal, Hartsdown Academy

Engaging and empowering all staff

SchooliP supports schools to help all staff to be even better.

SchooliP helps to engage and empower all staff with their own development and makes it easy to track and evaluate their performance.

- **Proactive development** - SchooliP helps you to identify, focus upon, and evidence your CPD activities within your personal portfolio

- **Sharing best practice** - SchooliP helps you to pull together skill sets, share knowledge, and help everyone gain deserved recognition

- **Ongoing evidence** - SchooliP helps you to constantly evidence development to support appraisals and performance pay discussions

- **Achieving objectives** - SchooliP helps to make your appraisal process transparent and continuous, supporting you to achieve

- **Consistent communication** - SchooliP helps you to engage with your manager throughout the year, supporting you to deal with any issues

Supporting
schools

SchooliP positively supports schools throughout the UK and internationally but don't just take our word for it...

Here are some more user comments:

SchooliP enables us to integrate several aspects of the strategic development of the school. At the click of a button, very useful reports are generated to support monitoring and evaluation.

Katherine Turner, Deputy Head, Chipping Sodbury School

At our most recent Ofsted visit, the inspectors could clearly see how our priorities are being implemented and planned.

Nick Melton, Assistant Headteacher, Tupton Hall School

We recently had a visit from our local authority advisor, who just happens to be training as an Ofsted Inspector, he was 'blown away' by the software.

Philip Adamson, Headteacher, Woodlea Primary School

Staff really like that they can upload their evidence at any point throughout the year, and their line manager can respond to this immediately by engaging in ongoing dialogue.

Phil Smith, Deputy Head, John Port School

The software makes everything transparent and teachers can really see their impact to the school and can see what the school is trying to achieve.

Dwayne Toon, Headteacher, Rolleston Primary School

We'll happily put you in contact with SchooliP users to discuss directly how your school could benefit from the solution too.

Contact us today on 0333 0433 450.

Effective evaluation
and improvement planning

SchooliP makes it easy to ensure that professional development is linked with self-evaluation and improvement planning, and enables effective processes.

- **Involve all staff - SchooliP makes evaluation and improvement plans 'living' and 'working' documents that all staff feel part of**

- **Manage strengths and development areas - SchooliP makes it easy to identify and analyse these in your chosen evaluation form**

- **Integrated improvement processes - SchooliP makes improvement seamless by integrating all improvement processes together**

- **Tracking improvements - SchooliP makes tracking and evaluating improvement strategies simple**

- **Demonstrating improvement - SchooliP makes sharing actions and improvements with staff, governors and inspectors effortless**

SCHOOL iP
Improving your school's performance

SchooliP enables all staff to clearly see how they are making a difference.

SchooliP
